Guidelines for packaging disposal

A real commitment to environmental sustainability

In Cortem Group, environmental protection is an integrated part of our corporate philosophy. For this reason, we adopt an environmental labelling system compliant with Directive (EU) 2018/852 and Legislative Decree 116/2020, which provides clear and transparent information on the correct disposal of packaging materials.

By following these guidelines, consumers can actively contribute to an efficient and responsible recycling process, helping to achieve the objectives of a sustainable circular economy.
